A SURVEY FOR ALL THOSE INTERESTED IN STROMLO.

About this survey:
The bushfires of 18 January 2003 devastated parts of the city, particularly in Weston Creek. Since this event many Canberrans have wondered about the future of the areas around our suburbs. This issue is particularly significant in the area known as Stromlo. The Chief Minister announced on February 19 that a separate consultation in relation to the Stromlo area would be conducted as part of the development of the Canberra Spatial Plan.

Naturally, there is a strong community interest in the Stromlo area. The ACT Government is committed to ensuring that all those with an interest in this area have a chance to share their views. This initial survey is the first step in a consultative process. The information you provide will inform the following key ACT Government projects:
- Non Urban Land Study;
- Urban Edge Study;
- ACT Forests Study; and
- The Canberra Spatial Plan.

Please return this survey by 11 April 2003 by using the prepaid fold-down on the last page.

We appreciate your time and effort.
Please tell us about your thoughts for the future of Stromlo.

Please feel free to tell us about your favourite places in Stromlo by drawing/writing on the map below.
